Spliced version

15W Magnetic wall mounting D50x600MM

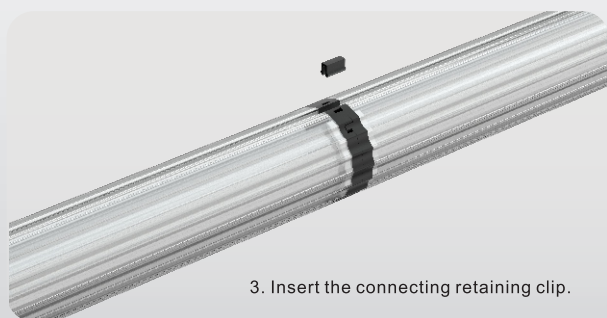

30W Magnetic wall mounting D50x1200MM

Wall-mounted version

SPLICING PROCESS

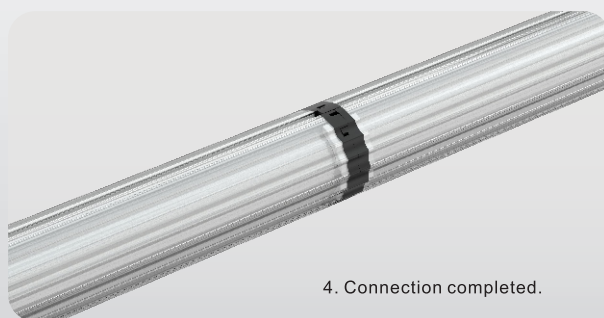

1. Disassemble the lamp body.

3. Insert the connecting retaining clip.

2. Align with the mounting holes and slide the fixture up or down to lock it in place.

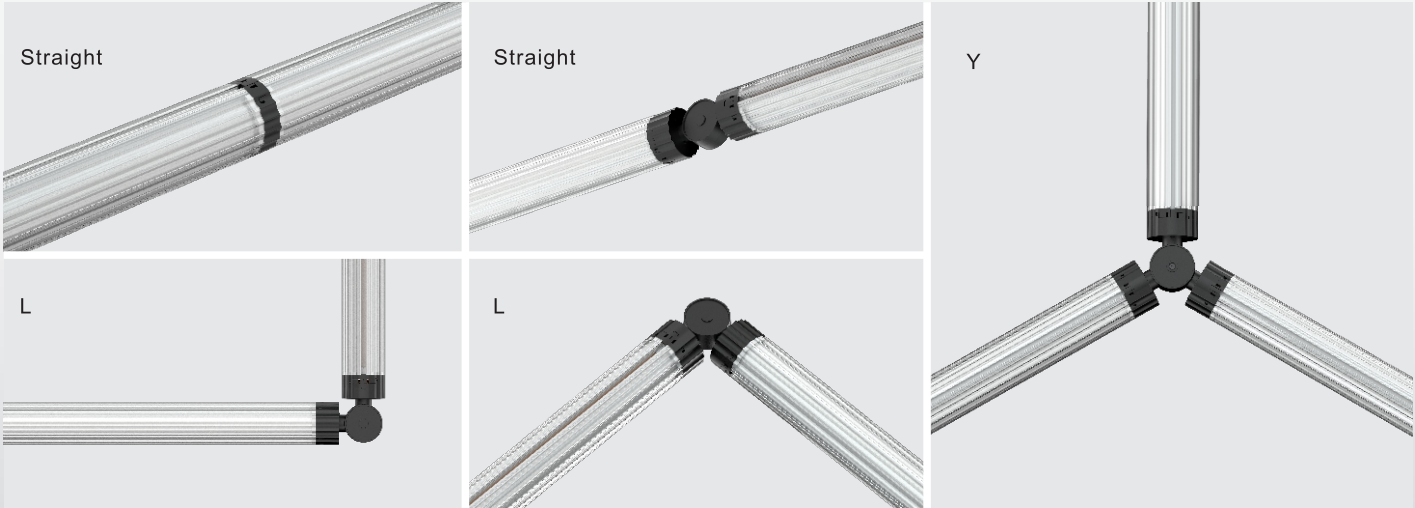

4. Connection completed.

LIGHT FIXTURE SPLICING

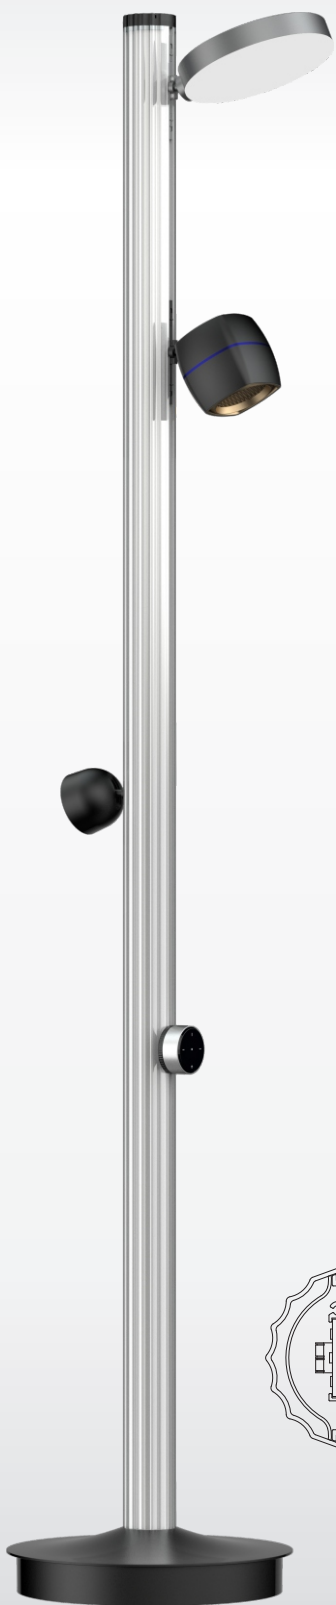

MODULE SPLICING CONNECTOR

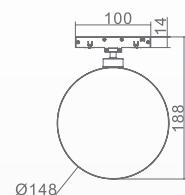

APPLICATIONS

This floor lamp features a sleek, sculptural silhouette. Its pole delivers integrated lighting and is compatible with all 5-mm magnetic track fixtures. Multi-angle adjustable lamp heads can be freely fitted to create flexible multi-layer light combinations. Supported by a solid, minimalist base, it merges the practical functionality of magnetic modular design with delicate, dynamic lighting aesthetics.

Note: Compatible with any products of the 5MM series

APPLICATIONS

This light weight pendant light features a self-illuminating body, compatible with all 5 mm magnetic fixtures for freely expandable lamp heads. Its sleek lines complement modern dining-kitchen spaces, flexibly creating soft, multi-layered lighting effects.

APPLICATIONS

These staggered pendant lights can be freely assembled into varied geometric shapes. The light tubes emit uniform illumination and are compatible with all 5 mm magnetic fixtures to allow flexible installation of diverse lamp heads. Their sleek lines match the minimalist upscale style of clothing stores. Layered light gently highlights displayed mannequins and apparel. This modular lighting system creates a clean, premium atmosphere for commercial spaces.

FOLDABLE GRILLE LIGHT APPLICATIONS

Interlaced pendant lights hang above the lounge area. The light tubes emit their own light and support various 5 mm magnetic modules. Their minimalist lines suit the business lobby with wood-and-stone textures. Delivering both ambient and accent lighting, they create open, comfortable and design-forward illumination for the commercial lobby.
